

Consandolo (Ferrara): April 7th, 2007

Image: Franco Chendi, for planetcircles.com

We post what our planetcircles' friends told us.

Last 4th of January, in a crop field in front of house of the ufologist Franco Chendi, appeared 3 circles of various size; the same shape was noticed on the wall of his house.

Then some weeks have passed and Chendi have sent a message to the presumed crop-makers: he carried out an enormous alien face in the same field. And now, 7th of April 2007, have appeared other 3 crop circles in that field. The smallest one is about fifth meters of diameter; the circle between is around 13 meters, and the bigger is about 20.

Thanks to Franco Chendi for the photos.
